EASTERN DATES TO NOV. 8.

EASTERN STATES.

ELECTION NEWS.

New York.

NEW YORK, Nov. 7.—The Democratic majority in the city is estimated at 30,000. Ledwith is generally abandoned by Tammany. He is badly beaten.

From the complexion of the returns received from the interior of the State it seems that the Republicans have elected 20 out of 32 Senators, and will have a majority in the Assembly. Outside of the city the only Democratic Senators believed to be elected, are Tracy of the 13th, Hardenburg of the 14th and Lord of the 28th (Rochester) districts.

In Brooklyn, Powell, Democratic candidate for Mayor, is elected, and also nearly the entire ticket. The reform ticket received but few votes.

Sigel is certainly elected Register over Shandley by 10,000 to 15,000 majority. The vote of the 4th Senatorial District stands, Tweed, 19,148, Rosso, 6,335.

The *Tribune* estimates that there will be a good Republican majority in both Houses of the Legislature.

The city has gone Democratic by 35,000 majority. Tammany is beaten in the 6th Senatorial District.

Three hundred towns gave a Republican gain of 13,300. Robertson (Rep.) is elected to the Senate from Westchester by 5,000 majority. The county elects three Republican Assemblymen, including James W. Husted, by 1,700 majority.

It is believed that Horatio Seymour and Samuel J. Tilden are chosen for the Assembly; also Trombley and Giel, Reformers. In the 4th District Tweed is re-elected Senator by an estimated majority of 12,000.

Order generally prevailed in the city to day, the only disturbance occurring in the lower part of the city in Tweed's district. Rowdies there committed outrages upon peaceable citizens with impunity. Rosso, Tweed's opponent, was attacked by a set of ruffians who had previously smashed the ballot box containing ballots for him. In this district, repeaters and thieves deterred many respectable men from voting the Reform ticket.

Massachusetts.

BOSTON, Nov. 7.—Boston gives Washburne 10,000 plurality. Returns from 177 cities and towns give Washburne 51,000 votes; Adams, 31,000, and Chamberlain and Pittman about 5,000 each. Washburne's plurality will exceed Claflin's of last year, which was a little less than 90,000.

The Legislature will be largely Republican.

Chas. Hale, late Consul-General in Egypt, is elected Senator.

Washburne has 25,000 plurality over Adams, with 56 towns to hear from. By a combination of Labor Reformers and Democrats, there will be a slight gain in the number of Democratic members. The House will stand Republicans, 176; Democrats, 64.

New Jersey.

TRENTON, Nov. 7.—Parker is probably elected Governor by from 3,000 to 5,000 majority.

Both branches of the Legislature are Republican.

NEWARK, Nov. 7.—Newark city complete, returns give Parker, Democrat, for Governor 828 majority, being a Democratic gain of over 2,000 over the charter election of last month.

Scattering returns from East Jersey favor Parker's prospects. Nothing decisive has yet been heard from South Jersey.

Maryland.

BALTIMORE, Nov. 7.—Republican gains are reported all over the State. Republicans will undoubtedly have several members in the Senate and probably one-fourth of the House of Delegates. They had not a member in either branch of the last Legislature. The Democrats claim the election of the State ticket by 8,000 to 10,000 majority. Republicans do not concede the election of White. Returns from the whole city, except the Eleventh Ward, give White, Democrat, for Governor, 7,764 majority.

Illinois.

CHICAGO, Nov. 7.—Medill's majority for Mayor is probably 12,000. It is believed that nineteen out of twenty aldermen on the Medill ticket are elected. The balance of the ticket for city and county officers is elected by a large majority.

Returns from the State are very meager, but show a light vote. Beveridge, Republican, is elected to Congress by probably 20,000 majority.

Wisconsin.

CHICAGO, Nov. 7.—Returns from Wisconsin are light, but indicate Washburn's election over Doolittle for Governor by 10,000 majority. Both branches of the Legislature are Republican.

Minnesota.

ST. PAUL, Nov. 7.—Returns from seventy-eight towns and cities give Austin (Rep.) 3,123; Young (Dem.) 1,695. The total vote of Ramsey county and city of St. Paul is not yet counted, but will probably reduce the above majority considerably.

Michigan.

DETROIT, Nov. 7.—For the first time in twelve years the Republicans have carried this city. Moffat is elected Mayor by 823 majority—a Republican gain of 1,200. Five Republican and five Democratic Aldermen are elected.

Virginia.

ALEXANDRIA, Nov. 7.—Conservative candidates for the next Legislature have carried this city by about 200 majority. No returns from the country, but it is supposed the Conservatives have elected their candidates.

RICHMOND, Nov. 7.—Returns are meagre, though enough is known to insure a large Conservative majority in the Legislature. The aggregate Conservative majority will reach 20,000.

LATEST NEWS CONDENSATIONS.

The capital employed in the wine trade of France is $580,000,000, while that embarked in the cotton trade is $40,000,000.

B. F. Hastings & Co., Bankers of Sacramento, have suspended. The firm has been in business since 1849, and always stood well.

Several weeks ago, on representation that J. W. Marshall, the original discoverer of gold in California, was poor and needy, a sum was voted for his relief by the Sacramento Society of Pioneers, and a committee appointed to expend the donation when required.

Application has been made to the Supreme Court of the United States for a mandamus to compel the Secretary of the Treasury to draw a warrant for $525,000 alleged to be due Kentucky for arming troops in the late war. It is believed it will be unsuccessful.

Tea growing is now carried on in various parts of the South with considerable success. A gentleman in Wilmington, North Carolina, has successfully raised plants and cured tea which he claims cannot be excelled in flavor by the imported article. He obtained the plants from the Agricultural Bureau of the Patent Office previous to the war, and their number has increased every year, the later plants being fully equal in every respect to those first grown.

A dispatch dated Washington, November 3d, says: Information has been received that 200 Ku Klux have made voluntary confessions and surrendered to the authorities. They are disgusted with the Ku Klux. Seven of them confess in writing. It is estimated that 300 have fled, and 110 are confined in jail. The Yorkville prisoners speak well of their treatment. A number have been released on parole.

A Washington dispatch of the 2d inst. has this: In reply to a telegram from St. Petersburg relative to the Catacazy difficulty, the Secretary of State authorizes the statement that Mr. Catacazy has been told that after the visit of the Grand Duke he will be relieved as Minister of Russia, and Mr. Curtin has given that Government to understand that unless Mr. Catacazy shall then have been recalled, or shall voluntarily retire, his passports will be sent to him.

OREGON.

The Salem Water Company are now furnishing water throughout the town at rates which the *Statesman* calls "very low and reasonable." Wish we could say as much for the Portland Water Company.

The *Messenger* says of the new college edifice at Monmouth: The brick work is now complete. It is a stately building of fine proportions. If the weather continues favorable it will be inclosed in a week or ten days. The work on the inside can then go on even though the weather should be wet or cold.

From the Jacksonville *Sentinel*: The surveying party under Mr. Hood, of the California company, are at present engaged in running a line from the summit of the divide between the waters of Emigrant and Keene creeks to the mouth of Jenny creek, near Ward's ranch, on the Klamath. They find an easy grade, and it is said the pass is the lowest yet examined. It appears that the California company is determined to push across the line and secure the very valuable timber land lying in the mountains.

A gentleman from Dayton informs us that an item copied in the OREGONIAN from the Dallas *Republican* relative to the marriage of a daughter of Gen. Palmer is very unjust. In that item it was stated that she had married "John Moore, a quarter breed Indian of low reputation." Our informant states that the name of the young man is Moar; that so far from being a person of "low reputation," he is industrious, worthy and bears a good character; that it is true that he has a slight mixture of Indian blood, but he is neither responsible for it nor worse for it. We take pleasure in making this statement, and deeply regret that the first item was inserted in our columns.

THE TERRITORIES.

The United States District Court at Salt Lake has granted $200 alimony to the first wife of one William Clayton, a polygamist, who is suing her husband for a divorce.

The Olympia *Tribune* says that the great agony at Puget Sound will soon be over. Within sixty days the "terminus" will be selected. And Puget Sound will be no better off than now.

Judge McKean, of Utah, in his charge against Brigham Young, said it was not really "The people of the United States in the Territory of Utah vs. Brigham Young," but would be better named "The United States vs. Polygamic Theocracy."

The Snake and Bannock Indians are now located on two reservations in Montana, and are cultivating considerable land. The Shoshones have a reservation in the Wind River valley. The Blackfeet and Piegans are hunting along the Taton river with no one to molest them or make them afraid. The Indians of Montana are more contented than they have been heretofore.

More Particulars of the Chicago Fire.

The story of the Chicago conflagration is apparently inexhaustible. Spectators viewing the ruins from different points of view state their impressions accordingly. We have from the editor of the Idaho *Statesman*, who was in Chicago a day or two after the fire, an account which give some particulars which we have not seen elsewhere. We quote:

After one has sufficiently recovered from the first shock of terror to notice particulars, the first thing that fixes his attention is the evidences everywhere of the great intensity of the heat. There is absolutely nothing combustible left. In places even the heaps of brick walls are still burning. Everything is left clean and white. The *Tribune* building, which is known to have withstood the fire for a long time, is supposed to have ignited on the inside from the accumulated heat in the walls. The iron plates and pillars show unmistakably that they became red-hot from external heat. There is scarcely a handful of ashes left, the gale having blown everything movable away. Fire proof safes and fire proof buildings are a misnomer, for this fire has developed the fact that there are none such. Buildings constructed throughout of incombustible material, and in a manner that it was supposed science and art had made impregnable, offered little more resistance to the terrible scourge than the flimsiest wooden structures. Bridges, built exclusively of iron with the exception of the floor, were melted into a shapeless snarl as though they had been a handful of wire. The iron safes with few exceptions, were with their contents burned to cinders and ashes. Some of them were half burned up, some with a whole side melted off, and in several instances melted and jammed into a shapeless mass, while others not burned out of shape were subjected to so great a heat for so long a time that they became red-hot to the center, and when opened their contents were undistinguishable cinders and ashes. The only things that withstood the ordeal were the well built bank vaults. Those with heavy well built walls, on good foundations stood secure, but faulty construction or foundation, in many cases proved fatal. Railroad tracks were twisted about the streets like vines in a pumpkin field. In several places long rows of trucks stand dismantled, marking the spot where trains of cars were burned. Here and there in the north part of the city a street car, with the fried masses of horses' carcasses attached, may still be seen, and in one place a once magnificent steam fire engine, with the horses, lie in a mass together. These facts show how suddenly they were overtaken with destruction. They also point to the fact that the heat created by the conflagration was such that with the strong wind prevailing, combustion was carried in the air far in advance of the flames. The number of lives lost never can be ascertained. The city wears the appearance of one vast funeral, and though hundreds, perhaps thousands, are engaged in cleaning away ruins or erecting temporary structures, they still work as men who cast clods into the graves of departed friends. There is not the cheerfulness that the local papers describe. How can there be? Great mountains of coal, the city's winter supply of fuel and the gas company's winter stock are still burning, and if not extinguished must burn for months. In the day time with a stiff southwesterly breeze they cast a heat so intense that it is difficult to approach them nearer than a half a mile, while at night the reflection of their light by the clouds, still casts a sickly glare over the city and country for many miles around. No event of modern times or of which history gives us any account save only that of earthquakes, impresses so much the mind with the awful forces of nature or the power of the elements. The moralists will find an ample field for reflection and abundant material from which to derive lessons to teach men the mysterious ways of providence.

Parties from Salt Lake have arrived at Washington and communicated to the Government some interesting facts. They state that the persecution of polygamy is injuring business very much; that Eastern capitalists who have gone there to invest in mining interests are leaving, and the Gentiles are curtailing their business operations, and sending their wives and children to places of safety. It is added that the Government has recently sold to these very Mormons old muskets for a dollar a piece, and that if war comes the Mormons will present a formidable front, though it is not improbable that they may immigrate to Mexico. It is stated that not twenty Gentiles in Utah favor the prosecution of the Mormons, and that even Federal and military authorities are indifferent to it on the surface and at heart opposed to it.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Utter Overthrow of the New York Democracy.

NEW YORK, Nov. 8.—The city election yesterday was the the quietest known for many years. The local government is completely reformed. Tweed is re-elected but will certainly be expelled. Sweeny's resignation is considered a Ring confession that all is lost. Eighteen reform candidates for the Assembly from the city are elected, and three Tammany candidates. The entire ticket of the Committee of Seventy is elected. All reform candidates for Aldermen are successful. Republicans carried the city of New York for Franz Sigel by 5,000 majority. They defeated every Tammany candidate for the Senate save Wm. M. Tweed, and reduced the Democratic majority on the State ticket from 52,000 to 23,000. The Republican majority in the State is at least 10,000. The Senate has 20 Republicans to 9 Democrats and 3 doubtful. In the Assembly there will be 88 Republicans and 40 Democrats; and in these last are included the reform Democrats. Tammany elected 6 out of 21 Assemblymen from the city.

Richmond, Rockland and other strong Democratic counties have elected Republicans Assemblymen even while choosing Democratic Senators where they are known to be honest and reliable. Nevertheless the Republicans control both branches of the Legislature.

Such independent voting was never witnessed before. People everywhere in the State repudiated Tammany. The Republican State ticket is elected probably by 20,000 to 25,000 majority. The vote fell behind the registry in many districts. In the State probably 22 Republican Senators against 10 Democrats are elected.

The *Times* says the people nobly responded to the appeals made to them. We have gained a greater victory than we dared to hope for. Once more can we be proud of our city and State and rest in perfect security, for the long reign of rascals and outlaws is over.

The *World* says the returns from the State indicate the election of the Republican ticket by 20,000 majority. As it never rains but it pours, the majority may be even more than this. We have lost the State and Legislature, and the Republicans will not fall far short of a two-thirds vote in either House.

The *Star*, Tweed's paper, says: We have met the enemy, and candor compels us to announce that we are decidedly theirs. There is no good in blinding the fact. The Tammany ticket is overwhelmingly defeated.

Miscellaneous Election News.

Walsh has been beaten for Governor of New Jersey mainly by defection in the city of Newark. Parker's majority is between 3,000 and 4,000. Republicans have the Senate, but the Assembly is in doubt.

Washburn carries Massachusetts by a majority of 10,000 to 20,000, and a plurality of from 2[illegible]000 to 30,000. Out of 250 members of the House the Democrats have 64, and of 40 Senators they have four. The Council and all other State officers are Republican.

The Republicans have gained several Senators in Maryland and one fourth of the House of Delegates. The Republican vote in Maryland is heavily increased, though White (Dem.) is elected Governor.

The Republicans elect Congressman at large in Illinois.

Wisconsin gives 10,000 Republican majority. Both branches of the Legislature are Republican.

From San Francisco.

SAN FRANCISCO, Nov. 8.—Mayor Selby received the following dispatch to-day:

CHICAGO, Nov. 7.—To Thos. H. Selby, Mayor of San Francisco: I this moment have your dispatch advising me of one hundred thousand dollars for our afflicted city. Heaven bless your generous people. It is munificent and worthy of the great hearts of San Francisco. Our people are busy in the ruins, inspired with hope by the acts of kindness from the whole civilized world.

The Disturbance in the European Money Market.

This topic, which has repeatedly come up of late, is treated in the following style by the London *Economist*:

As there is a good deal of interest at the present moment attaching to the payments by France to Germany, it may be useful to note what payments have actually been made. The indemnity itself, it will be remembered, amounts altogether to £200,000,000, of which £60,000,000 have actually been paid, partly in cash and partly in bills, or otherwise accounted for. Of the remainder there is a sum of £20,000,000 actually due next spring, but which forms the subject of a negotiation for immediate payment by negotiable bills in consideration of certain concessions by France in respect to the admission of Alsace and Lorraine manufactures into French territory. This leaves £120,000,000 unprovided for, which France is not bound to pay until the end of three years. We have thus some means of estimating the actual money which has been and is now in transit from France to Germany. The whole of the three installments past due must have gone in cash, or in bills which are now being cashed, with the exception of £13,000,000 to be deducted on account of the Alsace and Lorraine railways—the net payments thus being £47,000,000. In addition France paid to Germany last January £8,000,000 on account of the Paris indemnity, and has had to pay since March about £2,000,000 per month for the cost of maintaining the German troops in France—say £12,000,000. These two sums together make up £20,000,000, so that Germany altogether may have received £57,000,000 in cash and bills from France between January and the present date. Of course, a good deal of the money must have been spent in France itself; but making every deduction, the Prussian Government will have an enormous sum in hand, in spite of the assertion made some time ago in a Berlin correspondence which we quoted, that it was muddling away the money. The sum it will have to get next spring, moreover, is not merely the fourth half milliard of the indemnity, or £20,000,000, but £25,500,000, being the amount of that installment plus interest at 5 per cent. on the remaining £120,000,000, which France by the treaty is bound to pay until the principal is redeemed. By next spring, therefore, Germany will have drawn from France, in about a twelve month, over £90,000,000 sterling. As they are taking payment in coin and locking up what they get, there is no wonder at the present disturbance in the European money markets.

There are 930 prisoners in the California Penitentiary.

EXTENT OF THE MICHIGAN DISASTER.—An address published by the Michigan State Relief Committee sums up the losses by the late fire as follows: From 12,000 to 15,000 people, at least, in the State of Michigan, have lost homes, food, clothing, crops, horses and cattle. On the night of the Chicago fire, 2,000 people on the east shore of Lake Michigan, and 5,000 or 6,000 on the west shore of Lake Huron were reduced to almost absolute destitution. Within two or three weeks other small villages and settlements have been blotted out. The number of individual farm houses, barns and frontier dwellings which have been destroyed by the all-pervading fire, cannot, from want of information, be accurately calculated. The aggregate we know to be enormous.

[illegible] ON NASAL CATARRH.

[illegible] TENDING TO CONSUMPTION.

This is a chronic affection of the mucous membrane of the nostrils or the throat, originating in irritation or inflammation, and attended by more or less discharge. It is one of the most common, most disgusting, and finally, most destructive of diseases incident to the variable climate of our northern latitude.

In its early stages catarrh often fails to attract the patient's attention, so insidious is its approach. This is an unfortunate circumstance, because the most favorable period for treatment is thus unimproved, and because of the peculiar disposition of this disease to extend upward to the frontal sinuses, backward through the Eustachian tubes to the middle ears, and down through the larynx, trachea, and bronchia, to the air-cells of the lungs.

The discharge from the affected part is at first a clear fluid, which may escape observation unless it chance to be of a more than usually acrid character. As time goes on this gives place to a fluid that is thicker, and of a yellowish green color, and still later this may be [illegible] by thick flakes or scales.

In all the more advanced stages the discharges are generally of an offensive odor, causing great annoyance to one's friends and to the patient himself, while his [illegible] of smell remains. This annoyance from the odor becomes almost beyond endurance when, as sometimes happens, the delicate bones of the nose become diseased.

Some cases early assume the character of Dry Catarrh. There is then a feeling of uneasiness, heat and stiffness in the nostrils, which are often (one or both of them) closed by thickening of the mucous membrane, and thus a difficulty of breathing becomes a prominent symptom.

In examining the nostrils in Chronic Catarrh, with instruments specially adapted to that purpose, we find their lining membrane thickened and of a deeper color than in health. There are seen little points of ulceration, upon which the secretion becomes hardened and forms [illegible]. When these are picked off the [illegible] surface is irritated, and frequently bleeds profusely.

In each case of Catarrh the prominent symptoms are determined by the direction in which the disease extends. If this be upward there may be pain over and between the eyes, obstruction of the lachrymal ducts, causing the tears to flow over the cheeks, and possibly ophthalmic inflammation of the eyes. If backward, there will be thickening of the walls of the Eustachian tubes, and consequent tendency to their obstruction, inflammation of the middle ear, buzzing sounds in the head, and impairment of hearing. When the extension is downward, the voice becomes hoarse or whispering and [illegible], cough come on, with expectoration and emaciation, to be followed too often by Consumption and Death.

In cases where the bones of the nose become diseased, not only is the offensiveness of the breath increased, but there is a liability to serious personal deformities, among which are flattening of the nose.

The swallowing of catarrhal secretions deranges the functions of the stomach, causing indigestion and loss of appetite. Debility, paleness, lassitude, headache and disturbance of mind soon follow. In [illegible] instances the mental affection is one of irritability, the patient being unduly annoyed by all the little perplexities of life. In others, the prominent feeling is that of the melancholy or depression of spirits, when the invalid can see no hope for himself or his affairs.

Allusion has been made to the extension of Catarrh by continuity of surface along the natural air passages to the substance of the lungs, thus causing Consumption and Death. In this connection it should also be remembered that the air which enters the lungs of a catarrhal patient is, every breath of it, poisoned by exhalations from the foul secretions of the diseased surface. By such air the blood cannot be properly purified and made fit to impart healthy vigor in its unending circuit to all and every part of the animal mechanism. One would suppose that this consideration alone would be sufficient to induce every person thus afflicted to make early application for relief.

The treatment of Catarrh is in part constitutional, whereby the energies of the whole system are called to aid in expelling its destructive enemy. It is in part local, whereby the discharge is made less offensive, diminished and finally arrested, and whereby the [illegible] surface is healed and restored to its normal condition.

By means of new and ingenious apparatus, Dr. A[illegible] is able in Catarrh and all other affections of the respiratory organs, to apply his remedies directly to the desired localities. The treatment is thus made [illegible] as well as less disagreeable. In many cases the first application of the topical treatment will change the character of the disease and materially purify the breath [illegible].

THURSDAY MORNING, NOV. 9, 1871.

The Elections.

The dispatches tell the story. And they tell it so plainly and fully that there is little need of comment. Once more the great State of New York is Republican. With this result the last hope of the "Democracy" has departed. Intrenched in that State they had a base from which they could strike, at least with an appearance or shadow of hope, for political ascendency throughout the country. But their ascendency in New York was based on the gigantic frauds of Tammany; the State never was really Democratic and never was carried for that party but by fraudulent means. So with the overthrow of Tammany, the party is overthrown, and New York is again placed in its rightful Republican hands. But far more than any mere party triumph, this result is valuable as a rebuke of large-handed robberies which have scandalized republican institutions, and as a sign that the people are honest and demand that the thieves be brought to justice. Popular government is not a farce, even though Tammany's past iniquitous successes have sometimes made it seem so.

It now becomes really doubtful whether there will be Democratic nominations for President and Vice President next year. The case is so utterly hopeless that no real effort can be put forth by the party. Intelligent Democratic journals which have advocated the policy of making no nominations, but standing ready to unite with dissatisfied Republicans in supporting candidates who are quasi Republicans and without Democratic taint, have proposed the only course that remains to be taken. The Democratic party is suffering from a bad name and bad principles, and must renounce both. "If," says the Boston *Advertiser*, "the Republican party stand firm and keep its senses the Democratic organization will pass out of existence by a process analagous to that which characterized the decay of the old Whig party. The day of its Bell and Everett importance is not far off."

Then and Now.

The Philadelphia *North American* in a retrospective view of the financial and industrial condition of the country at the time of the great fire in New York thirty-five years ago, takes occasion to speak of the present situation as affected by the Chicago fire; and in handling the subject it arranges and marshals its facts so admirably, and shows so clearly the progress of the country under its present sound industrial policy, that we cannot do better than to quote considerable portions of its article, as follows:

Then, the whole property of the country could not have exceeded $5,000,000,000; and it is very doubtful if it reached even that amount. Now, it exceeds $30,000,000,000; and were allowance made for the labor saved by the hundreds of thousands of machines in use throughout the country, it might be here set down as being ten-fold greater than in the former period.

Then, our iron product was but 250,000 tons, and our whole consumption 330,000 tons. Now, our production has reached 2,000,000 tons and our total consumption 2,500,000.

Then, the coal mined east and west could scarcely have exceeded 1,500,000 tons. Now, it has grown to nearly 30,000,000, the application of four-fifths of which is in the direction of economizing human labor and elevating the laborer.

Then, we worked up 200,000 bales of cotton. Now, we do the same by 1,000,000 bales, nearly the whole of which is consumed at home by those who labor.

Then, our woolen manufacture was confined almost entirely to the commonest products of the loom. Now, it embraces almost every description of goods, to the very finest; its amount approaching nearly to $200,000,000.

Then, the majority of our people were but poorly clothed. Now, they are by far the best clothed population of the world.

Then, we had 1,000 miles of railroad. Now, we have more than 60,000.

Then, the lake and river ship-building of the West was scarcely known. Now, it reaches 100,000 tons per annum.

Then, we lived under the regime of President Jackson's western and southern wild-cat banks, busily engaged in contracting obligations that were never to be redeemed. Now, every note of every bank in the Union is gladly received at every counter of every shop in every State.

Then, we mined but very little of the precious metals, and our total coinage for the year was but $5,000,000. Now, our product of the metals is $90,000,000.

Then, our banks were pretending to pay specie, doing this with the full knowledge that it was a pretense and nothing more, and that a foreign demand might at any moment cause them to fail of payment. Now, our commercial system is based on greenbacks, not liable to be withdrawn or reduced in quantity, and always available for every commercial purpose.

Then, those who desired to replace their commodities and machines destroyed were in great measure compelled to look abroad, thereby adding to the demand for those precious metals of which so small a quantity could be found in the vaults of the banks. Now, nearly all of these supplies are to be obtained at home, making large demands on our mills and workshops, and giving to our own labor the employment which before had been given to that of England.

Then, we had just entered upon the free trade policy, which brought such speedy bankruptcy in 1837, and such utter ruin in 1840-1842. Now, we yet retain the protective system, under which the reward of labor has fully doubled; and by means of which we have been saved from financial crises like those free trade ones of 1818–1824, 1837–1842 and 1857-1860. Let those who fear a crisis, recollect that nothing of the kind has ever yet occurred in periods of protection.

An "interview" has been had with Count Catacazy by a reporter for the New York *Commercial Advertiser*. The Russian Minister stated that "both Mrs. Grant and Mrs. Fish have been uniform in their courtesy to Madame Catacazy," and that the difficulty between himself and the President and Secretary Fish grew wholly out of another matter. The *Oregon Herald* will now find it necessary to amend its recent "leader" on this subject.

Tweed's election not only disgraces the Democratic party, but is a reproach to the country and to republican government. It proves that there is no power in the ballot against the worst form of demagogism, and will be quoted everywhere as the strongest possible argument against political institutions founded on the suffrages of the people.

Mormon Murders Investigated.

The Pacific Railroad, says the Cincinnati *Gazette*, has done important service in rendering Mormonism amenable to the laws which govern other parts of the country. When the fugitive followers of Joe Smith founded their colony of Deseret, they had reason to believe that their new abode would for years be inaccessible to the meddlesome Gentiles. Were the government to interfere with them, the difficulties of sustaining a campaign on the part of the invaders would be very great. Hence Brigham ruled his followers with a despotism rarely equaled outside of Asia, and with an impunity as great as if he were the autocrat of an island instead of an interior Territory.

The apparent harmony which reigned in Utah, was occasionally disturbed by rumors of horrible crimes. It was alleged, though not fully proven, that the "destroying angels" were accustomed to make short and bloody work with any saint who grew tired of his profession and was anxious to change his religion and residence.

Fourteen years ago last spring, a disgusted Mormon named Parrish, planned to escape with his family. The design became known to the leaders, and they resolved to prevent the flight by killing the fugitives. A man named Durfee confessed in 1869 that the assassination was ordered by Bishop Aaron Johnson, A. F. McDonald, and other dignitaries. The terrible commission was carried out. Durfee's confession gave full accounts of the tragedy; also the testimony of Orrin E. Parrish, son and brother of two of the murdered men, have been in the possession of our national authorities for two years past, together with other evidence of a like nature. On the finding of indictments, Johnson and McDonald hid themselves, but the former is now under arrest. The other parties to the crime will doubtless be captured soon, and the territorial courts will award strict justice to the murderers, as well as to the polygamous apostles.

The *Herald* has furnished a second article exceeding a column in length, designed to show that the country is rapidly advancing under its present policy toward a Monarchy; and a third article on the same subject is announced. Doubtless that paper supposes that this outcry will arrest public attention, but it will not. It is the same false alarm that was raised in Jefferson's time. Then it was a potent agency in turning the Government away from the safe course on which its founders started it. Under the clap-trap cry of "Monarchy," the true principles of the Constitution were forsaken and Jefferson's State-sovereignty-secession doctrines substituted for them. But now we have returned through red fields of war to the early principles of the Government,—principles which are as far from monarchy as from disunion and national disintegration. The old cry of Monarchy will now avail nothing. Political communities as well as individuals often learn wisdom as they grow older. Experience keeps a school where lessons are taught more thoroughly than anywhere else.

Granville Stuart in a letter to the St. Louis *Republican*, treats of the condition of the Indian tribes of the Rocky Mountains and Pacific Coast. He says that nowhere have the aborigines declined so rapidly as in Oregon, where whole tribes are extinct. This is a broad statement. The decay of Indian tribes here has been rapid, it is true; but has it been any more rapid than that witnessed in all parts of the country where the whites and Indians have been brought into contact, from the days of the Pequod war until now?

The proposition to purchase Park Row has taken at last something like a definite shape, and as it is to be decided by a vote of the taxpayers in a few weeks, no doubt it will be generally discussed before the vote is taken. We shall present some considerations on the subject in a few days, or as soon as materials for analyzing and discussing the proposition intelligently can be got together.

Hartford Insurance Losses and Profits.—A Hartford (Conn.) letter writer says: "Many instances have come to my knowledge where people in humble circumstances have lost their all, by the failure of the companies that have gone under. In one instance a milliner in this city had put every cent she could save for years into stock, which had paid her handsome dividends, but now her entire $5,000 of savings had gone. And our most conservative and careful business men are among the heaviest losers." It is explained that the Hartford insurance interest has been for years one of the most prosperous and profitable, as an illustration of which it is stated that "in a recent lawsuit it became necessary to determine the present value of $265 of stock in the Hartford Fire Insurance Company, which was alleged to have been misappropriated in 1851, twenty years ago. A careful computation by the reference of the value of the stock, with all the dividends that have been paid to date at compound interest, showed the enormous accumulation of $44,000."

About the six wealthiest property owners in the city of New York are those whose names are given below. In a tabular form we show the gross amount of the reputed wealth of each, and the number of years' labor it required to accumulate such vast sums:

Names.	Amount of Wealth.	Yrs. required.
Cornelius Vanderbilt	$25,000,000	60
Alexander T. Stewart	20,000,000	40
William B. Astor	20,000,000	49
William W. Tweed	12,000,000	6
George Law	5,000,000	40
Daniel Drew	8,000,000	60

The old Confederate powder works at Augusta, Ga., which were surpassed in size or perfection of equipment by none in the world, have been lying idle since the war, fast going to ruin. They have now been purchased by a company who intend to put them to their original use. They were confiscated by the Government at the close of the war, and their purchase would have to be made of the United States authorities. It does not seem at all probable that they would permit them to to be used as powder works again.

Amongst the charges Senator Schurz makes against the President is the appointment of his brother-in-law to office.

Amongst the first demands made upon the President by Senator Schurz was the appointment of *his* brother-in-law to the office of Collector in Chicago. He is also particularly hostile to "carpet-baggers," seeming to forget that it is not very long since his own baggage was checked through to St. Louis and that of his brother-in-law to Chicago.—*St. Charles (Mo.) California papers advocate the creation of a State Inspector of Railroads, whose duty it shall be to see that the roads are kept in a safe condition, and particularly high trestle work shall be strengthened and kept in perfect repair.

From San Francisco.

San Francisco, Nov. 8.—It is clearing up again; no rain to-night.

Abel Knight of San Diego, and F. Bolano of Half Moon Bay, were committed to the insane asylum to day.

Arrived—Hawaiian bark *Queen Emma*; cargo mainly sugar, for Merrill & Co.

On discharging the cargo of the bark *Whistler*, which was on fire for two weeks, it is found that most of it is hardly injured at all. The fire, instead of originating in the lime, as first supposed, is found to have started in a lot of second hand furniture, etc., between decks, which was almost wholly destroyed. Below this was salt, which in a great measure protected the cargo below, and doubtless saved the vessel.

At the Pacific course, Alameda county, the three Norfolk fillies, owned by Hanlon, Atchinson and Welch, all started in the running race for a purse of $300, mile and repeat. Hanlon's filly won the first two heats. Time—1:49½, 1:51½. The second race, mile heats, between Nellie Flaventy and Tom Atchinson, was won by Flaventy. Time—1:46½, 1:46¾. Attendance fair.

The Coroner commenced the inquest this evening on the remains of the two men killed last week by the falling of the front of the pavilion.

The *Moses Taylor* for Honolulu, Australia and New Zealand to-morrow, will take a fair freight list and a larger freight list than usual, and a heavy mail, most of which arrived to-night.

Fifteen bags English closed mail per, steamer *Russia* for Chicago, arrived here to-night per overland train, having been miscarried. The postmaster will return it to Chicago by the morning train.

INTERIOR CALIFORNIA DISPATCHES.

Los Angeles, Nov. 8.—The grand jury is empanneled. The cases of the rioters under arrest, as well as others implicated in the great riot, will be brought before them.

Seven hundred and five bars of crude bullion, from the Cerro Gordo smelting works, are received here for San Francisco.

San Diego, Nov. 8.—In the County Court to-day the grand jury found an indictment against A. J. Fenick for murder, in killing Chas. Wilson in San Diego.

REMARKABLE CURE OF THE DEPUTY JAILER OF MULTNOMAH COUNTY JAIL.

"The work goes bravely on." Case No. 5,240—Second series.

City Jail, Portland, Oregon,
June 7, 1871.

A. M. Loryea & Co: I was attacked with a severe case of rheumatism. It was in my thighs, hips, fingers, shoulder blade—indeed in all the joints of my body I suffered great pain and anguish. I was attended by a regular physician, but with no effect. I was induced to try your Oak Weed Remedy, and it immediately cured me up. I consider it, from my experience, the best remedy for rheumatism known.

ALFRED F. TURNER, Deputy Jailer.

This is to certify that the above statement is correct to my own knowledge. JOHN P. WARD, Jailer.

OF THE

Pianoforte, Guitar and Organ,

RECENTLY FROM THE EAST, AND MORE RECENTLY from San Francisco, is stopping at GEO. W. HILLMAN'S, No. 203 Second Street, next to the New Congregational Church, where she would be glad to see all interested in music, and wish to learn to play in the shortest possible time. By this method a pupil sees at sight what the fingers are required to perform; giving a more thorough knowledge of harmony and thorough bass; learning to play the Piano and Organ in one-half the time of the old method. Please give her an immediate call and inquire what the method is.

At home from 3 to 4 P. M.

Mrs. WHITE is also Agent and has for sale, Wm. McCammon's celebrated full iron rim Pianos, of Albany, N.Y.

AN UNPREJUDICED PHYSICIAN

INTERVIEWED.

Bold Opinions Truly Expressed.

POPULARITY IS NOT ALWAYS A proof of desert. Every newspaper man knows that. Many articles are engineered into temporary popularity that have no intrinsic merit whatever. It is an easy thing to make sweeping assertions and sow them broadcast in the columns of the public press. But there is a class of experienced and thoughtful birds, not to be caught with chaff, like Captain Cuttle, they want "an opinion as is an opinion," in other words, the judgment of competent and disinterested authority, as a basis for their own.

Several of these cautious individuals having done us the honor to invite an expression of opinion in these columns on the properties of the much talked of Tonic known as Plantation Bitters; we have taken the pains to obtain from a distinguished physician whose ability and integrity of purpose no one will venture to question, what may fairly be deemed a conclusive answer to the questions of our correspondents. Dr. Elias Kennedy Whitmarsh, as a surgeon, pathologist and chemist, has few superiors west of the Alleghanies; and the following conversation which occurred a few days ago between that gentleman and one of our staff, is offered, without comment, for the information of "whom it may concern:"

REPORTER.—Have you any objection to state your views in relation to a medicinal preparation which has obtained great celebrity in this country? The object is to ascertain whether the reputation is deserved or not.

DR. WHITMARSH—If I know anything about the article, I'll tell you what I think of it. How is it named?

REPORTER—Plantation Bitters.

DR. WHITMARSH—Well, it is a wholesome vegetable tonic.

REPORTER—Anything else?

WHITMARSH—Yes, it has a mild aperient property, and produces a salutary effect upon the liver when that organ is diseased.

REPORTER—It contains alcohol I understand—Santa Croix Rum.

DR. WHITMARSH—Of course it contains a diffusive stimulant. If it did not its medicinal ingredients would be comparatively inert. They are rendered operative by the alcoholic principle.

REPORTER—Supposing that theory to be correct, is Santa Croix Rum a good article for that purpose?

DR. WHITMARSH—The best I think. It is more nutritious and far less exciting than the spirits made from grapes or grain.

REPORTER—But are stimulants really necessary at all in medical treatment?

DR. WHITMARSH—Sir, if you had ever practiced medicine you would not ask the question. They are an essential portion of the *materia medica*. Every intelligent member of the profession knows that. The physician who den'es it is either a hypocrite or a fool.

REPORTER—Do you consider a medicated stimulant like the Plantation Bitters preferable to simple alcohol? In other words, would the Santa Croix Rum be as useful without the other ingredients as with them?

DR. WHITMARSH—Certainly not. Among those ingredients are Extract of Dandelion, one of the finest antibilious medicines I know of; Calisaya Bark, of all tonics the best; and Chamomile, an admirable stomachic. The remedial powers of these curatives is increased probably tenfold by the nutritive stimulant with which they are incorporated.

REPORTER—You seem to have a high opinion of the Bitters.

DR. WHITMARSH—I simply state facts, sir. You must draw your own conclusions.

REPORTER—May I ask if you ever prescribed Plantation Bitters for your patients?

DR. WHITMARSH—I do, frequently. All that I have said to you is founded on my own experience. I never make positive statements on unsubstantial grounds.

REPORTER—I am sure of that. Excuse me for having trespassed so long on your valuable time. Good evening.

We presume the correspondents who have addressed us on the subject of Plantation Bitters, will consider their questions satisfactorily answered by the remarks of Dr. Whitmarsh.

Referring to the above, we desire to call your especial attention to the features of this Company: The business of the OREGON BRANCH is conducted under the supervision of a Board of Directors, elected by the stockholders resident within this State. The entire receipts, both Fire and Marine Premiums, as also the Capital Stock, subscribed within this State, is retained and invested here by the Board of Directors, thereby relieving, in a measure, the constant drain upon the resources of the State, by the annual withdrawal of large amounts of money paid for Insurance.

Losses will be fairly adjusted and promptly paid, without the intervention of foreign adjusters.

THURSDAY MORNING, NOV. 9, 1871.

CITY.

THE PERJURY CASE.—Never in the history of journalism in Portland, has there been vouched to the reportorial fraternity an item so full of sensation and interest as the arrest of "Wrestling Joe" on the charge of perjury. Scrap books that were wont to play a prominent part in furnishing "local items" for the daily press were thrown aside, and the reporter, thanking his stars, reveled for once in the luxury of a highly colored sensational item. His busy brain was overtaxed to meet the demand for such sensational headings as were worthy of so important an item. The offices were sadly taxed for exclamation points, but with the assistance of the job offices the demand was met, and the item, decked out in the gaudy apparel of sub-heads between every other line, made its appearance, or in other words it became linked sensation long drawn out. This much by the way of an introduction. Yesterday morning when the case was called in the Police Court the reporters, wearing an unusually happy and contented air, were all present, each striving to outdo the other in obtaining the most sensational side of the story. Our reporter, with his usual modesty, soon captured the only available seat that was to be found in the room. The other reporters contented themselves by sitting on tables, or hanging on the backs of occupied chairs, vainly endeavoring to catch the words of wisdom as they flowed from the mouths of the attorneys. Between the speeches and motions the reporters devoted themselves to "Wrestling Joe," and in poetic fancy painted him as a man on the verge of the grave, with one hand battling with death, and the other extended forth grasping after a golden prize. These fancies were brought to a close by the introduction of the first witness. By the way of parenthesis we will here state that by order of the Court the witnesses were excluded from the court room, and only allowed to enter as they were called to testify. Upon the appearance of the first witness, pencils were sharpened and the reporters settled down to their tasks in good earnest.

Mr. Smith, who was the first called, testified as follows: I reside in St. Clair county, Illinois. I am 72 years of age. I am the proprietor of a stage and express line. First became acquainted with defendant in 1819. He then went by the name of James W. Davidson. I was on very intimate terms with him. He had a family and resided three miles south of Bellville.

At this juncture, Mr. Bronough, one of the counsel for the defence, arose and stated that he noticed that the newspaper reporters were present taking down the testimony, and if it was to be published he saw no good reason why the witnesses should be excluded from the room, as the publishing of the testimony would defeat the object of the order of the Court in that particular.

The Court coincided with the views of the counsel, and the reporters, much to their disgust, were requested to discontinue taking down the evidence. Not desiring to be brought before his Honor for contempt, the reporters were left no other alternative but to fold up their notes and silently leave the room. This report would have been much longer had it not been for the *request* aforesaid. And thus a first class sensational item was nipped in the bud.

LARCENY BY BAILEE.—A couple of Chinese who are engaged in keeping a wash-house, were arrested on this charge last night. A few days since, one of our citizens in overhauling his wardrobe, came to the pious conclusion that a portion of his wearing apparel needed washing, and, in accordance with this belief, took the garments to the establishment of the Celestials aforesaid, where he received for them a receipt, written in Chinese characters, supposed to contain information to the effect that when the document was presented the clothing would be forthcoming. Trusting implicity in the honesty of the "Heathen Chinee," our citizen left with the belief that at the appointed time, upon presenting the receipt his clothes, neatly washed and ironed, would be handed over to him; but, sad to relate, his confidence was misplaced, for the reverse obtained, and instead of receiving his clothing, as anticipated, he was greeted by that highly comprehensive and intellectual answer usually given by Chinese when they are in a tight place, and that is, "no shabee John." To cut a long story short, our friend did not get his clothes, and what is more, he is not likely to. He laid his grievances before the police, who, with their usual alacrity, soon succeeded in arresting the offenders. The matter will be examined into by Judge Denny this morning.

COURT HOUSE, OR NO COURT HOUSE.—This all important question has for sometime past been the bone of contention of our Washington county neighbors. Upon this issue the county divided itself into two parties somewhat resembling the celebrated factions so humorously described by Dickens in his "Pickwick Papers." The matter, to use the language of a correspondent, has "come to a head," and at the last meeting of the County Commissioners it was decided to build the much talked, and to some, the long desired Court House. In order to obtain an expression of the views of the citizens upon this subject, the County Court gave those who were opposed to the movement an opportunity to circulate a remonstrance against the proposed erection of a temple of Themis at that ancient but highly respectable burg, Hillsboro. Out of nearly twelve hundred voters, but four hundred and thirty-five were found who were opposed to the Court House. Sixty of the signers are represented as being minors and non-residents. From this it would appear that Washington county is to have a Court House. The matter at one time, assumed a threatening aspect, but wiser counsels prevailed and the affair was brought to a final termination without resorting to the aid of warlike measures.

FATAL FALL.—Between eleven and twelve o'clock on Tuesday night, a man named Patrick Hughes, while in a state of intoxication, fell from the J street bridge, immediately opposite the *Era* office, East Portland, a distance of twenty feet or more, breaking his neck, causing it is thought, instant death. During the early part of the night, Hughes had been drinking quite freely, and shortly before eleven o'clock left a saloon near the ferry landing with the intention of going home. It is thought that while making his way across the bridge he lost his balance and fell. The body was not discovered until yesterday forenoon, when the Coroner was notified and a jury summoned. The deceased was a native of Ireland, forty-five years of age, and a married man. From letters found in his possession, it appears that he formerly resided in Sonoma county, California, and has been living here but a short time. His family, at present, reside in Watertown, Wisconsin.

IN TROUBLE.—Some weeks ago a woman named Ellen Munroe was arrested on a charge of robbing a man of a considerable sum of money. Ellen had an examination before the Police Court, and was bound over to answer the charge at the next term of Circuit Court. In default of bail she was committed to the county jail where she now remains. As the Grand Jury is about to meet, and Ellen not feeling like standing trial, induced a friend of hers named St. Clair to go to the complaining witness and offer him one hundred dollars to leave, and not be present when the case is called up by the Grand Jury. The offer was indignantly refused, and the police informed as to the affair. A warrant was issued, and St. Clair taken into custody. The matter will be examined into this morning by Judge Denny.

COUNTY COURT—HAMILTON, J.—J. A. Strowbridge presented his semi-annual report as administrator of John Torrence, deceased. Report accepted.

In the matter of the estate of Patrick Raleigh, deceased, the consent of S. J. McCormick, guardian ad litem, to the sale of real estate for the benefit of the minor heirs was read, and sale ordered.

ARREST OF A WITNESS.—Yesterday afternoon an important witness in one of the criminal actions about to be tried at the next term of the Circuit Court, was arrested by the police while attempting to leave the city. It is supposed that he had received a sum of money to absent himself until after the discharge of the grand jury.

GENEROUS.—Upon the request of Miss Mary Sheridan, Columbian Engine Company No. 3, at its last meeting donated $50 to the St. Vincent de Paul Society to aid in the erection of a hospital. For this handsome donation to so worthy a cause the company, although not desiring it, deserve praise.

UPPER COLUMBIA.—Hereafter the boats on the upper Columbia river will make but three trips a week, leaving Celilo on Tuesday, Thursday and mornings for Umatilla and Wallula. The steamer *Tenino* will run between Celilo and Umatilla, and the *Owyhee* between Umatilla and Wallula.

FOR SITKA.—The *Gussie Telfair* sailed last evening for Sitka with an unusually heavy freight.

LOCAL BREVITIES.

The bull and bear fight which was to have come off on Tuesday, was a decided failure. The bear was afraid of the bull, and the latter beast wouldn't fight. The one hundred persons present declared the thing a "bilk."

While endeavoring to rescue Judge Green from a watery grave at Vancouver on Monday, Capt. O'Brien, Assistant U. S. Assessor for Washington Territory, came nearly drowning himself. He was taken out by the officers of the steamer *Vancouver*.

The citizens of Aurora have contributed $111 50 to the Wisconsin and Michigan Relief Fund.

Keithley, one of the "rustlers," at present confined in the county jail on the charge of robbing a countryman of $1,000, is said to be dangerously ill.

The average attendance at the Colored School in this city is but eighteen.

John Rosenberg of St. Stephen's Chapel, to deliver a lecture before it; and also requested him to communicate the time that would be most convenient. He has accepted the invitation and has selected next Tuesday evening for the lecture.

NEW BOOKS.—A new work has been placed in the Portland Library entitled New Physiognomy, or Signs of Character as Manifested through Temperament and External Forms, and especially in "The Human Face Divine," by Samuel R. Wells, author of Wedlock, and editor of the *Phrenological Journal*.

ATTEMPT AT SUICIDE.—A female performer connected with one of the Front street Melodeons, attempted to commit suicide last night by taking an overdose of morphine. The timely arrival of a physician saved her life.

TAX LEVY.—The County Commissioners have made the following tax levy for the year 1871: State purposes, 5 mills; military, ½ mill; school, 2 mills; building tax, 1½ mills; county purposes, 8 mills; total, 17 mills.

DESERTER ARRESTED.—W. Piper, who deserted from Co. C, 23d U. S. Infantry, at Vancouver, on the 9th of August, was arrested last night by officer Brannan.

PERSONAL.—Geo. A. Endes, recently appointed Collector of Customs for Alaska, vice Kapus resigned, took his departure yesterday by the *Gussie Telfair*.

THE COUNCIL.—Owing to the absence of a majority of the members, there was no meeting of the Common Council last night.

BUSINESS NOTICES.

PARTNER WANTED.—In a business in full operation. Cash capital required, $2,500. See advertisement.

THE fires still spreading! Continued destruction of property! Wares at a sacrifice! Michael Reese loses to the extent of $250,000 and still flourishes. The loss to Isaac Barman in consequence of the increased rates of insurance obliged him to make a move, which move was from the old wooden concern lately occupied by him to the commodious and attractive brick store corner of Washington and Front streets, where the saving in insurance will redound to the benefit of his patrons. Barman's enterprise and assiduity well entitle him to the public favor which he has so long enjoyed. Stored as his establishment is, with the best that Portland boasts, and continually receiving heavy invoices, he may be deservedly styled the Prince of Clothiers—and though Prince he be, the poor will become rich and the rich richer by making their purchases at his low-priced one price store.

TESTIMONIAL.

We the undersigned having been the recipients of the services of Mrs. Mae C. White in teaching the science of Music on the Pianoforte, take pleasure in giving a hearty testimonial that we have employed her in our families as a teacher of her "New Method of Instruction," and that it has proven *superior* to any method we have ever known. And that although the *first cost* may be a trifle greater than some others, we believe it to be in the aggregate much cheaper, beside being a great economy in point of time. We, therefore, take pleasure in recommending her to the patronage of all who may be desirous of obtaining a musical education, as a very superior instructor.

To those who desire to know more about it before incurring any expense, we give a cordial invitation to call at our homes and interview her pupils.

The Martyrs of Neglect.

It is not too much to say that tens of thousands are now suffering from biliousness, indigestion, constipation, periodical fevers, general debility, and nervous affections who might be restored to perfect health within a month or less by the use of Hostetter's Stomach Bitters. The multitudes who have been cured of these and other ailments by the use of this well known specific are always ready to testify to its virtue as a preventive and a remedy. They are spread over the whole country; they are eager to praise and recommend it; and yet, notwithstanding its vast popularity, there are many invalids, many who are continually exposed to the epidemical diseases, against which it is a sure protection, who, either through indifference or incredulity neglect to seize the opportunity to cure and means of prevention, which they have only to reach out their hands to obtain. This is strange; it is one of the anomalies of human nature which it is impossible to account for or explain. It is, however, quite certain that every day the number of these Martyrs of Neglect is diminishing. This is proved by the statistics of the sales of the great remedy. During the present fall the demand for it has increased beyond all precedent, and it seems as if in the end the entire community would realize the important fact, that when all other medicines prescribed for the above complaints fail, it can and does effect a cure. As a protection against the diseases most common at this season, there is nothing comparable with it.

NEW YORK LIFE INSURANCE COMPANY!

PURELY MUTUAL!

ASSETS .... $17 000,000!

ISSUED 9,925 POLICIES IN 1870.
Insuring Over $27,000,000!

WM. H. BEERS, Vice President and Actuary.
MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although EQUITABLY claims, are not LEGALLY so. The records of this Company bear many acknowledgments from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

ÆTNA LIFE INSURANCE COMPANY,

OF HARTFORD, CONN.

FOUNDED IN THE YEAR 1820.

Adopted Mutual System in the year 1861.

ACCUMULATED CAPITAL OVER	$15,000,000.
ITS ANNUAL INCOME OVER	6,000,000.
WHOLE NUMBER OF POLICIES ISSUED TO DATE, NEARLY	100,000.
NUMBER OF POLICIES ISSUED IN 1870	11,217.

THE ÆTNA RANKS AS ONE OF THE FIRST COMPANIES IN THE LAND!

IN INCOME, IN ASSETS, IN NUMBER OF POLICIES, IN AMOUNT INSURED, IN SOLIDITY AND STRENGTH. IN SOUNDNESS, CHEAPNESS, PROMPTNESS AND SUCCESS.

THE AMOUNT OF DIVIDEND A COMPANY CAN PAY ITS INSURED, DEPENDS UPON THE RATES charged for insurance, the AMOUNT of business done, the EXPENSE of doing it, the INTEREST on its investments, the CARE exercised in the selection of its risks, and the TIME when such dividends are paid. In regard to these, as also all other points, the ÆTNA is unsurpassed in advantages by any other Insurance Company in the United States.

The *New York Insurance Monitor* says of the Ætna:—"No Life Insurance Company ever achieved so complete a success as this popular institution. Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."

The *New York Independent* says of the Ætna Life:—"It is to-day one of the *soundest* and *most reliable* Insurance Companies in the United States—every dollar of its assets well secured; more than providing for all liabilities; and it eminently deserves a still greater patronage and the unhesitating confidence of the public."

East Portland!

TO OUR PATRONS AND THE PUBLIC GENerally desiring to make SAFE and RELIABLE Investments in Real Property, we beg leave at this time to call your attention to this DESIRABLE TRACT, which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.

No one that has ever visited this body of Land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, the land having a gradual slope from the River back to SEVENTEENTH STREET, there being scarcely any Block in the entire tract but what a

Fair View of the City of Portland and Willamette River

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F street, Couch's Addition, to the Foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE:

Aside from gigantic Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street improvements, under contract, by grading and planking Holladay Avenue its entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Weidler.

☞ Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. FERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

FINANCE AND COMMERCE.

Wednesday Evening, Nov. 8, 1871.

Gold at New York unchanged—112.

Portland Legal Tender quotations, 88½c buying, and 89½c selling.

On the 26th ult., at New York, the Assistant Treasurer received bids to the amount of $6,040,000 for the Government gold offered, at prices ranging from 110.26 to 111.77. The sale of two millions was effected at 111.77@111.60.

On the same day the Treasury paid out $350,000 on account of November interest, making a total of $2,000,000 to date. The buyers of the gold sold took out $600,000, leaving $1,400,000 ... to be paid for.

For Government bonds, the following were closing quotations, on the 26th October: U. S. 10-40's, 109⅜; 5-20's of 1862, 114⅝; 5-20's of 1867, 113¼.

The total gold value of imports at New York, excluding foreign specie, from the 1st of January, 1871, to September 30th, 1871, amounted to $341,645,850, against $289,631,857 for the corresponding period of the previous year, showing an increase in 1871 of $52,013,993. The exports for the same period, including foreign goods re-exported, amounted to $171,763,682, against $132,847,135 for the corresponding period of 1870; showing an increase in 1871 of $38,916,547.

The entire customs receipts for September were $40,000,000, which is the largest ever known. The internal receipts for the same month were $10,632,615, against $12,902,903 for September, 1870. The receipts for the quarter ending on Sept., 1871, were $36,000,000 against $61,150,000 for the same quarter in 1870.

In relation to the supply of Wheat on hand in the State and available, we are inclined to think the estimates of some of our cotemporaries too high. The *Bulletin*, for instance, says: "The San Francisco papers are publishing that the surplus Wheat crop of Oregon will be 75,000 tons. How they become possessed of these figures we cannot conceive, but that they are wrong we very well know. We have used every effort in our power to secure figures upon which to base an estimate, but could not do so. We, however, did find that the surplus exceeded 100,000 tons, and should not be astonished if the figures should reach 150,000 tons." According to the best information we can obtain, there are not to exceed 35 or 40 thousand tons remaining in the Wallamet valley. We have had approximate estimates of the quantities in store at the various Wheat depots, the aggregate amounting, at the beginning of the month to but little more than 1,000,000 bushels, or 30,000 tons of 2,000 lbs. Outside of these depots, if we may rely upon the most intelligent and trustworthy reports, there is but little Wheat except in the hands of parties able to hold on to await whatever may come. This means but a small supply, for the number of holders thus able to keep their crop over is exceedingly small. We should say that 10,000 tons in such hands an estimate high enough to be called almost wild. The total of the crop yet on hand and for sale may reach 40,000 tons, but we doubt it.

On Saturday, the 11th, Mr. A. B. Richardson will hold a real estate and merchandise sale at his place, corner of Oak and Front streets.

The sailing vessels now loading at San Francisco for this port are the *Orient*, *Rival*, *Brewster* and *Windward*.

The steamship *John L. Stephens* is announced to sail for this port on Saturday.

The steamship *Ajax* arrived from San Francisco with a full freight of merchandise.

The bark *Garibaldi* will sail for Hong Kong on Friday evening or Saturday morning.

The Boston *Shipping List and Prices Current* of the 28th ult. quotes freights from that port to San Francisco, on measurement goods, in clippers, 20@30c per foot; by weight, ¾@⅞c per pound.

The vessels on the way to this port from Eastern and foreign ports are as follows: *Alden Besse*, B— master, — from Newport, Wales, July 10—150 days out and shortly due. The *Barracouta*, Goddard master, sailed from Liverpool July 4—158 days out and due. The *Harrington*, McK— master, sailed from Newport June 26, and from Milford July 8—105 days out. Bark *Metis*, Smith master, sailed from Britton Ferry July 31—100 days out.

The Commissioner of Internal Revenue decides that a manufacturer may sell the product of his own manufacture anywhere in the United States without paying a special tax as dealer, but only in properly stamped packages. He cannot retail it. An employee sent out by the manufacturer may sell in the same manner as the manufacturer, but he cannot retail it. If a traveling salesman is not an employee of the manufacturer, he is liable to a tax ... special tax, and when he has paid that tax may retail tobacco from wooden packages properly stamped. But in no sense can a tobacco manufacturer retail his own product.

Unfortunately Oregon purchases most of its wear of Boots and Shoes of Eastern manufacturers, and in no article are we more directly affected by disturbances in the Eastern markets. We are, therefore, likely to feel quite sensibly the ... loss of stocks in the great Chicago conflagration. To give our readers an idea of the extent of this loss, we append the following remarks from the *Shoe and Leather Reporter*:

Probably the severest strain to which the Eastern boot and shoe trade has ever been subjected will result from the Chicago calamity. At this season of the year the Chicago ... with dealers in all the Western and ... distributing points of the trade, accumulate large stocks of goods, which they are enabled to do, owing to a system of business and long credits that result in loading to repletion the Western wholesalers once a year. In the fall of the year, also, the freight lines engaged in transporting millions of tons of produce from the West to the Eastern markets, reduce their tariff for return freights so low as to make it an object for the Western merchants to take advantage of the low rates, the difference between September and February being usually two hundred per cent. in favor of the former month. Owing to these several influences, there can be no doubt that Chicago had on hand at the time of the conflagration the largest stock of goods ever before at any one time in her possession. It is estimated that the destruction of boots and shoes will easily foot up to a total loss of not less than $10,000,000 in value. Every shoe house in the East will feel the effect of this heavy loss. Many of them certainly must suffer severely. Worcester and Milford, producing about $12,000,000 yearly (in boots principally,) sell the bulk of their goods in the fall of the year, and nearly all to Chicago. This may be accepted as an indication of the heavy losses to be sustained by the shoe trade.

Produce Market.

Beyond the little bustle of filling up the *Gussie Telfair*, for Victoria, Sitka, and northern way ports, with Flour, Feed, etc., there has been but a trifle of business transacted to-day.

WHEAT—The market is very quiet and prices as quoted yesterday. Millers offer for clean lots $1 20. Jobbers are still holding off at $2 20@2 25, not caring to take chances on purchases in advance of opportunities to ship.

FLOUR—The requirements for shipment north per *Gussie Telfair*, yesterday, exhausted the market of inferior grades. Quotations are, however unchanged.

POTATOES—The demand is not so strong as for some days, and we quote ordinary Columbia river at not above 90c. Kidneys for table use are scarce and bring readily $1@1 25.

EGGS—Market almost entirely bare, demand strong and prices going up. We quote an advance to 60c ℔ doz. for fresh.

Markets.

[BY TELEGRAPH.]

SAN FRANCISCO, Nov. 8.—Flour—Best brands Oregon extra, $7 62½@7 75; other brands Oregon, $7@7 50.

Wheat Market quiet at $2 50@2 60 for fair to good average lots.

Barley—Feed, $1 80@2; dark Coast to good Bay, $2@2 10.

Oats Advanced to $1 65@1 86½.

Potatoes Stock large and prices low. Red, 50c@$1; silverskins, 85@90; sweet, $1@1 25.

Wool Market decidedly slack and several lots sold at a decline. One of the three principal receiving houses sold 112,000 ℔s during the week, another none and no report from the other. Good shipping 24@26c; burry and dirty in large supply and unsaleable. The reported heavy purchases in Australia is disbelieved by parties who have agents there.

Hides—California salted and dry sold at 9@9½ and 17@18c ℔ ℔.

Tallow—Firm at 9@10c.

Daily Receipts of Produce.

Nov. 8—Per Str. *Senator*—2,994 qr sks flour; 50 bags oats; 100 bags wheat; 3 bales hay; 150 sks bran; 230 sks middlings.
